WALL'S OPERA HOUSE.—The Chapman Sisters, with the infant Siahop, commence a series of performances at Wall's to-night. They open in the burlesque entitled "The Forty Thieves, or Striking Oil in Jars," and the performance will conclude with the rearing farce, "Wanted-I,000 Milliners," with Bishop as Madame Vanderpauts. The Foster Broshers will execute the grotssque quadrilles which a short time ago caused so sauch merriment by the Clodoche troupe. Mr. Wm. Withers, well known as a musician ar. wn. witners, well known as a musician of acknowledged ability, will lead the orchestra, and good music may be expected. Those who desire to spend a pleasant evening should certainly look in upon the little ladies who are spoken of above.

Limcoln Hall.—It is unnecessary to call attention to the Oratorio of the Messiah, which will be given to-night at Lincoln Hall by the Philharmonic Suclety. A quartette from the English Opera Troupe, composed of Madama Parepa-Rosa, Mrs. Begnin, Messy, Nordholm and Lawrence has been sugaged, and it may be safely asserted that the solos will be given in a manner which has seldom been surpassed. The chorns will number one hundred voices, and the long practice had during the past winter has fitted the members to effectually render the grand choruses of this Oratorio. An orchestra of thirty pieces has been secured, comprising the best musicians of the District and Baltimore. The entire entertainment will be under the control of Dr. J. P. Caul-field, the efficient leader of the Philharmonic Society. We understand that nearly all the seats have already been secured, and it behooves those who have neglected to obtain tickets to lose no time in so doing.

The rapid decline which has taken place within a short time has led financial men to within a soor time has all made at the took forward to a resumption of specie pay-tricuts as an event but far distant. Indeed, lu many cities small dealers have already commenced paying in specie, but this is noked upon as a shrewd advertising dodge. It is, however, whispered in Wall street that the Chemical Back is about to resume, and other banks are getting their affairs is a condition to be ready to meet the emergency could one or two lead off.

There seems to be a general feeling throughout the country that we are neare a recumption of specie payment than even the present premium on gold would indi-cate, and this feeling in itself may do much

to lead to such a result.

The causes assigned for the rapid decline in gold are a confidence in the administrain goin are a commonce in the antich has thon of General Grant abroad, which has crested a large demand for American scent-lies, and the large crops of cotton and eadstuffs, which swell our exports and relieve the country of any drain of the pre

The three months, and Deery was the favorite by great odds.

At midnight Rudolph made a run of 370 points, which was received with wild applause. This made him nearly even with Deery, the score standing 1,044 to 1031. At this point the number of spectators had increased to 4,000; and though there was great excitement manifested, excellent order and good teeling prevailed. The match closed at 1 o'clock, Rudolph making a run of 43, and scoring 1,801 points. At one time Deery claimed a foul, and

New YORK, March 6.—The World has an extraordinary sensation in its Paris letter of February 21, published to-day.

According to the goastp of the French salons, Emperor Napoleon III. died on the 5th of September last under the knife of the surgeon Bicord, and in his place there reigns the Frince Imperial as Napoleon IV., with the Empress Eugenie as Regent.

The story runs that a near relative of the Emperor, though not in the line of succession, and bearing close resemblance, ap-

the Emperor, though not in the line of suc-cession, and bearing close resumblance, ap-pears in the place of Napoleon on the few occasions on which he was supposed to ap-pear in public.

The correspondent says the plan originated with the Emperor, who feared European complications; and that before his death he

complications; and that before his death he received assurances from England, and his believed from Russla, that they would sid in maintaining the Prince on his throne. The latter gives various reasons for credit-ing the story, and says it explains the recent remarkable changes of policy on the part of the French Government. Novertheless it appears like an easily-contradicted canard.

How Emigrants are Oniraged in New York. New York, March 6.—The legislative Committee of Commerce yesterday made a searching invastigation into the cause of the recent riots among immigrants on Ward's Island, and concluded that the complaints of the so-called rioters were not without consisting, and that referen was very much needed. The testimony was all to the effect that "the food was bad, and not enough of it." There were only four wash-basins and two towels for six hundred persons, and these changed but twice a week. No readng matter of any kind. The clothes were or, and soon became covered with verming the beds hard and uncomfortable, and not

to the Constitution of the United States, shall become, and thereby be, relieved of such dias-billities.

The bill recognizes the fact that has been too long unrecognized, viz., that the rebellion closed five years ago, and that all but a single State among those which went out in 1801 are now again within the Union. All legislation tending to favor the few against the majority is wrong and should in so the state of t

proper that a Representative should be what his title implies, and not exactly the reverse of that.

Up to the close of the rebellion the immense commercial, agricultural, mining, and manufacturing possibilities of the South were almost unknown and altogether unappreciated. But alsoe, by the mischance of war, the people of that section have been compelled to develop their natural resources, it has been ascertained that the wealth of their country is almost inestimable. To properly develop it they must have not only full political rights and self-chosen representatives, but they must be assisted by Northern capital and islow. They must be established between the two lately conflicting sections a unity of fraternal feeling, as there is of material interests. The issues over which the battle was fought have disappeared, and the victory was so conclusive and thorough that the North can best affired to give to its late enemy the most generous concessions. We, therefore, hope that Mr. Burchard's till may pass.—Philosleighias Inquirer.
